1 Find Doctors and Facilities in Your Network

*When you need to access care, your PPO plan uses providers from the **PPO Individual & Family Plan network**. These include doctors, specialists and hospitals.*

With PPO, you have the freedom to use out-of-network providers. But, you'll often pay less out of pocket when you use in-network providers.

To find providers, visit
www.myhealthnetca.com and click on
Find a doctor.

Your primary doctor, also known as a primary care physician

A Primary Care Physician (PCP or primary doctor) helps you stay healthy and takes care of you when you are sick. If you need to see a specialist, your PCP can help guide you, but you do not need a referral from your PCP to see a specialist.

You do not have to choose a PCP with your PPO plan. However, a PCP brings a lot of value to your health plan.

Don't forget to select specialists from the PPO Individual & Family Plan network.

2 Set Up Your Online Member Account

This site is here to help you understand and manage your Health Net plan.

To set up your account, go to **www.myhealthnetca.com** and follow the instructions to register/create an account. You will need your member ID number or your Social Security number to register. Once your account is set up and your health coverage begins, you can:

- Pay your bill.
 - Find a doctor, urgent care or hospital in your network.
 - Review your health plan and pharmacy benefits.
 - Find programs to help you manage weight or stop smoking.
 - And more.
- Print a temporary ID card or order a new card.

3 Get your Member ID Card

All new members will get a Health Net member ID card in the mail.

Your ID card includes:

- **Your member ID #.**
- **Starting date of your health coverage.**
- **Contact info.**

Show this card to your provider when you get services. If you have not received your ID card by your effective date and you need services, please call the **Customer Contact Center at 800-839-2172 (TTY: 711)**.

Learn Where to Get Care

Your plan offers a variety of ways to get the care you need, when you need it.

At a doctor's office

Your primary doctor

Go to your primary doctor (also called your primary care physician or PCP) for routine and preventive care. This includes annual wellness exams, illness, vaccinations, and general medical care.

To find a doctor in your PPO network, visit myhealthnetca.com and click on *Find a Doctor*.

Other in-network providers

Get care from other doctors, specialists or providers (like urgent care or hospitals) in your network. You don't need a referral from your primary doctor.

To find providers in the PPO network, visit myhealthnetca.com and click on *Find a Doctor*.

MHN network providers

Get mental health services like:

- Counseling
- Psychotherapy
- Treatment for addiction
- Psychiatric services

You don't need a referral from your primary doctor. And, you can check to see if you can obtain your sessions by phone or videochat. **Find a therapist or psychiatrist at www.mhn.com/members.html, or call the Mental Health Benefits number listed on your Health Net ID card.**

At home

Telehealth

See if your PPO doctor offers telehealth services. Telehealth services through your doctor are subject to the same copayments as if the service was delivered in person.

You can also use Babylon App for phone or online video consults with a telehealth doctor or therapist. Ideal when you can't meet with your primary doctor or their office is closed.¹

Download the Babylon app in the Apple App Store or Google Play. Use member code: HNCOM

24/7 Nurse advice line

Get advice from a registered nurse on whether to seek medical care or how to care for illness and injury at home, like self-care for minor injuries and illness like fevers and the flu.¹

Call 800-893-5597 (TTY: 711)

In a clinic

Walk-in retail clinics

Go to a walk-in retail clinic, such as MinuteClinics (found in select CVS Pharmacy stores), when you need care for common illnesses.¹

Visit www.cvs.com/minuteclinic to search for locations near you.

Urgent care centers

Get same-day care for non-emergency illnesses or injuries.¹ Some urgent care centers now offer **X-rays and lab tests**, too.

To find an urgent care center in your PPO network, visit myhealthnetca.com and click on *Find a Doctor*.

You are in the PPO Individual & Family Plan network.

¹Go straight to the nearest emergency room or call 911 if you have an emergency.

Understand Your Costs and Benefits

If you want to keep your costs as low as possible, choose doctors and specialists from the PPO network. You are free to see providers that aren't in your network. But, they may charge more than Health Net will pay.

You may have to pay the difference between what the out-of-network provider charges, and what Health Net pays. This is called balance billing. Balance billing amounts are not covered by your plan.

See an example of how it works.

Joe sees a specialist who is not in his network

The specialist charges \$1500. Health Net pays \$700. Joe may get a bill for the remaining \$800.

Other good things to know:

- Balance billing amounts won't apply to your calendar year deductible or your out-of-pocket maximum.
- You pay these costs in addition to your deductible, copays, coinsurance and your monthly premium.
- You cannot be balanced billed for emergency room services at the hospital or emergency department.

Review your coverage

Your Welcome Kit includes details about your share of costs in your policy.

You can also find your Summary of Benefits and Coverage (SBC) document online:

1. Go to myhealthnetca.com
2. Go to *Our Health Plans*
3. Select *Plan Materials*

Estimate costs and compare care options

Our cost estimator tool lets you compare estimated costs. With this tool you can **compare estimated costs to find the best prices**. Get estimated average costs for hospital stays, surgeries, X-rays and more.

To use the tool:

1. Log in to your member account at myhealthplan.com.
2. Click on *Coverage*
3. Click on *Cost and Care Options*
4. Then click on *Launch Cost Estimator*

If your doctor refers you to a specialist, make sure the provider is in your network.

5 Fill Your Prescriptions

When your doctor prescribes you medicine (drugs) there are a few things you need to know.

Use pharmacies in the network

You must find and use a pharmacy in Health Net's Standard Pharmacy Network in order for your prescription to be covered.

To find a pharmacy in your area:

1. Go to myhealthnetca.com
2. Select **Pharmacy Information**, then **Find a Pharmacy**.
3. Select **Standard Pharmacy Network**.

Refer to the Essential Rx Drug List

Health Net's Essential Rx Drug List (or formulary) is a list of covered drugs selected by Health Net, along with a team of health care providers. These drugs are included because they are believed to be a key part of a quality treatment plan. The drug lists are updated regularly and may change.

The Essential Rx Drug List can be found at myhealthnetca.com under the Pharmacy Information section. Please note, your doctor should get prior approval from Health Net before prescribing some drugs. Then, use pharmacies in your health plan's network – Standard Pharmacy Network.

Ask your doctor about generic drugs that may work for you. Generic drugs are proven to be safe, effective, and typically cost less than brand-name drugs.

If you take medicine for a long-term medical condition, you may be able to fill your prescription through our mail order pharmacy program. A 90-day supply is available. Some drugs may not be available through the mail order pharmacy program.

For more detailed information about prescription drugs, see the Policy in this welcome packet.
