¹These guidelines may change. Please speak with your doctor.

²Your doctor should follow proper series and current guidelines by the Centers for Disease Control and Prevention (CDC). Your doctor should also follow guidelines set by the US Preventive Services Task Force (USPSTF), and American Academy of Pediatrics (AAP).

³Routine health exams, counseling and education for children and teens should include gauging the patient's:

· Height

· Weight

· Blood pressure

· Substance abuse

· How to quit tobacco use

• Tuberculosis (TB) screening

Exams should also include body mass index (BMI), vision and hearing tests. Counseling and education could include, but are not confined to:

- · Birth control/family planning
- · Critical congenital heart defect, heart health
- Dental health
- Developmental/behavioral assessment
- Injury/violence prevention

- Mental health
- Nutrition
- Exercise
- Sexually transmitted infections (STIs) and

HIV screening

Routine health exams, counseling and education for children and teens should include gauging the patient's:

· Height

• Weight

· Blood pressure

Exams should also include body mass index (BMI), vision, and hearing tests. Exams can also include tests for depression, and screening for alcohol or drug use. Recommendations can vary based on history and risk factors. Counseling and education could include:

- Cancer screenings (e.g. lung cancer screening and BRCA risk assessment)
- Birth control/pre-pregnancy
- · Dental health
- Drug prevention/Cessation
- · Family planning
- · Heart health, electrocardiogram (ECG) screening
- Injury/violence prevention
- Maternity planning
- Menopause
- · Mental health
- Nutrition
- Exercise

- Sexually transmitted infections (STIs), and/or HIV screening
- · Substance abuse
- · How to quit tobacco use
- · TB screening
- · Weight management

⁴Preexposure prophylaxis (PrEP) is medicine and treatment to help prevent HIV. Your Health Net health plan provides HIV PrEP as part of your preventive care benefits. There is no cost-share for PrEP services when you use an in-network provider. Preventive coverage for PrEP linked services includes:

- Provider office and telehealth visits
- Prescriptions and help to manage medication
- · HIV testing
- Testing for kidney function

- Testing for hepatitis B and C viruses
- Hepatitis B vaccination
- · Testing for other STDs
- Pregnancy testing

- Constant follow-up and tracking every three months
- · And more
